- (14.00-15.20)

Description

Institute Praktikum is accredited Adult Education Centre specializing in professional training courses mainly in the area of business education. The main mission of this Institute is to offer educational programs designed for gaining practical and technical skills in selected area. The business sector is looking for skilled professionals and we are here to help our students booster their competitive advantages in the labor market. We offer online and offline courses in the field of accounting, financial management and data analysis. Since our team members have advanced academic degrees and long engagement in research activities, Institute Praktikum is equipped for conducting high quality both quantitative and qualitative research on various subjects. Our efforts are directed towards improving the quality of education and research, promoting e-learning and digital skills importance as well as contributing to productivity and business efficiency increment.
